Note A: Product is not recommended for porch installations. Additionally, product has a very poor holding ability. Do not use.

Note B: Thin metals (.011 or less) can be installed but it is not recommended due to installation difficulty. If installing, work screen fully into channel first (no trim installation) then install spline. Use PF-014 polyspline.

Note C: Extrusion will not accept metals over .011 or stiff metals such as bronze, stainless, etc. Do not use.

 **WARNING:** SNAPP[®] screen is a “build in place” / “screen in place” insect screening system and will not provide fall prevention. Further, insect screening and sunshading materials only intended use is to reasonably stop insects from entering the covered opening. The misuse of insect screen and sunshading materials may lead to injury or death. SNAPP[®] screen will not stop persons, children, animals, or alike from falling out of or entering through the insect screen or sunshading material covered opening. Consult and follow all local building codes.

Manufactured in the United States of America using North American and US sourced materials.
